

Electronic sirens - serie 400

public safety equipment

- tones and functions controlled by microprocessor
- extreme range of operating temperatures
- high efficiency and reliability
- easy installation, simple use

- homologation according to ECE10
- standard tones WAIL, YELP, HI-LO, HORN
- available tones HORŮ, PIERCER, Y-249, DIN and others according to legislative in concrete country

AZD 400 B

Warning equipment for priority vehicles **AZD 400 B** is a set:

- 1) siren amplifier **AZZ 400 B**
- 2) control unit **AZJ 400 serie B or A**

AZZ 400 B

siren amplifier

7 tones / digital BUS control / microphone - PA function / 12 V or 24 V / HORN signal

- **light control of light sources** (LED displays, work lights, LED arrowbars, ...) integrated into the handheld unit
- Easy installation - Amplifier and digitally controlled control units are connected with the RJ45 data cable
- max. power up to 200W
- microphone function - Integrated into a handheld microphone or as a separate microphone with a separate control panel
- **switching day / night mode**
- **external signal source** - possibility to connect MP3 player, etc.
- **HANDSFREE function** - connection to external button, eg horn
- **MANUAL function** - quick siren activation / tone change
- **IGN function** - turning on the amplifier from the car's key (only for AZJ 400 B-M-6 and B-M-16 control units)
- **HORN signal** for extended warning function dimensions (w x h x d) 122 x 180 x 68 mm

AZZ 400 B-M

AZZ 400 B-M-24

AZJ 400 B

digital control units

- **AZJ 400 B-M-16**
 - the microphone is integrated into the hand-held unit with the control of all lighting equipment
 - 16 buttons, backlight for easy orientation at night, optical indication of activated function
 - macro button function definitions
 - for full system control AZD 400 B (up to 9 controllable outputs)
 - dimensions (h x w x d): 125 x 65 x 25 mm
- **AZJ 400 B-M-6**
 - compact design of the manual control unit with integrated microphone
 - 6 backlit buttons with optical indication of the activated function
 - possibility to control up to 6 outputs
 - dimensions (h x w x d): 100 x 61 x 17 mm
- **AZJ 400 B-M-6-1**
 - digital panel integrated into a separate unit
 - removable microphone AM 01-E (is not part of the control unit)
 - 6 backlit buttons with optical indication of the activated function
 - possibility to control up to 6 outputs
 - dimensions (w x h x d): 130 x 53 x 53 mm
- **AZJ 400 B-M-6-2**
 - digital panel integrated into a stand-alone unit 1DIN standard (car radio)
 - removable microphone AM 01-E (is not part of the control unit)
 - 6 backlit buttons with optical indication of the activated function
 - possibility to control up to 6 outputs
 - dimensions (w x h x d): 190 x 58 x 80 mm

holder of the control magnetic

AZJ 400 B-M-16

AZJ 400 B-M-6-0

AZJ 400 B-M-6-1

AZJ 400 B-M-6-2

microphone AM 01-E connectable to the control unit

AZJ 400 A

analog control units

AZJ 400 A without microphone function

- **AZJ 400 A-2-0**
 - control panel built into the panel
 - without microphone function, microphone AM 02-E (connectable to an amplifier AZZ 400 B)
 - 2 buttons: day/night mode, MANUAL/HORN
 - dimensions (w x h): 52 x 33 mm
- **AZJ 400 A-3-0**
 - control panel built into the panel
 - without microphone function, microphone AM 02-E (connectable to an amplifier AZZ 400 B)
 - 3 buttons: day/night mode, beacon/electronic siren, MANUAL/HORN
 - dimensions (w x h): 66 x 33 mm
- **AZJ 400 A-4-0**
 - control panel built into the panel
 - without microphone function, microphone AM 02-E (connectable to an amplifier AZZ 400 B)
 - 4 buttons: day/night mode, beacon/electronic siren, siren tone selection, MANUAL/HORN
 - dimensions (w x h): 82 x 33 mm
- **AZJ 400 A-6-1**
 - control panel built into the a stand-alone unit 1DIN standard (car radio)
 - without microphone function
 - 6 buttons: day/night mode, electronic siren, siren tone selection, MANUAL/HORN, disconnection warning lights
 - dimensions (w x h x d): 190 x 58 x 80 mm

microphone AM 02-E
connectable to an amplifier AZZ 400 B

AZJ 400 A-2-0

AZJ 400 A-3-0

AZJ 400 A-4-0

AZJ 400 A-6-1

AZJ 400 A with microphone function

- **AZJ 400 A-M-3-0**
 - control panel built into the panel, with an external microphone
 - 3 buttons: day/night mode, beacon/electronic siren, MANUAL/HORN
 - microphone volume control
 - dimensions (w x h): 89 x 33 mm
- **AZJ 400 A-M-4-1**
 - control panel built into the panel, with an external microphone
 - 4 buttons: day/night mode, beacon/electronic siren, MANUAL/HORN, switching on the long distance lights
 - microphone volume control
 - dimensions (w x h): 106 x 33 mm

microphone PM 01-E
connectable to the control unit connector

AZJ 400 A-M-3-0

AZJ 400 A-M-4-1

AZD 400 A

3 tones / without microphone / 12V / HORN signal

- **compact design** for installation into tight space
- **max. power up to 200W**
- **simple operation with function indication**
- **HANDSFREE function** - connection to external button, eg horn
- **MANUAL function** - quick siren activation / tone change
- **HORN signal** for extended warning function
- **beacon function control** with automatic tone blocking if beacon has malfunction
- **very easy installation** - device consists from two main components:
 - 1) **siren amplifier AZZ 400 A** - containing also relay to control lightbar or beacons (5A), can be installed outside passenger's cabine, under seats, Compact dimensions 122 x 132 x 68 mm (w x h x d)
 - 2) **control panel** with buttons and function indication LEDs
 - 3) **connection cables** in standard or customer defined length
- **AZJ 600 A-4-0**
 - compact design of the manual control unit
 - 4 backlit buttons with optical indication of the activated function
 - dimensions (h x w x d): 100 x 50 x 18 mm

AZZ 400 A

AZJ 600 A-4-0
incl. holder with magnetic attachment
